Thompson made a map for the whole borough of St Pancras in the 1790s, published in 1804. The land including Cantlowes demesne is shown.

The Camden Town estate is shown in Daniel's Map of Marylebone, 1834, numbered '18':

Cantlowes Prebend is shown on an Ecclesiastical Commission map of approx. 1846

There are two full maps of the estate, dated 1833 and 1873, on rollers that presumably belonged with the Estate offices, now at London Metropolitan Archives.
